

Alpha-Iduronidase, Fibroblasts

Additional Names

MPSI, Hurler Syndrome, Scheie Syndrome

Orderable

Use requisition*

Required Documentation

[Biochemical Genetics Laboratory Requisition](#)

Specimen Requirements

Specimen Types: Fibroblasts

Containers:

Sterile Container

Specimen Handling

Collection Instructions: Sample must be collected so that it will be received in lab no later than 3:00 pm of collection day.

Storage and Transportation

Transport specimens to the laboratory immediately after collection.

Testing Location

Biochemical Genetics Lab

Testing Schedule

As required

Method of Analysis

Plate Method
