

Hepatocellular Cancer Automated Triage

- Patient is within appropriate catchment area (if patient is from Kitchener/Waterloo, Cambridge, referring physician should be directed to closest cancer center).
- If requirements met patients should be booked into next available radiation oncology consultation slot without oncologist triage required.
- If outstanding items missing note sent back to referring physician to complete.
- If uncertain review referral request with triaging oncologist.

If all criteria present then book in next available consult slot, otherwise return to referring physician to complete indicated investigations/documentation.

Liver as Only Site of Disease:

- Staging CT of the thorax, abdomen, and pelvis within past 3 months.
- Laboratory investigations to include bilirubin, albumin, INR/PTT, and AFP within past 3 months.
- Documentation of Hepatitis B or C status.
- Bone scan optional (but not required).
