

CIDP PANEL  
(NODAL/  
PARANODAL  
ANTIBODIES),  
SERUM

## Orderable - NODAL

Turnaround Time: 15 days

### Alternate Name(s):

Panel includes:

Anti-Neurofascin 155 (NF 155)

Anti-Neurofascin 186 (NF 186)

Anti-Contactin 1 (CNTN1)

Anti-Contactin 1/Contactin-associated protein 1 (CNTN1/CASPR1)

**Laboratory:**

Clinical Immunology Lab

**Requisition:**

GENERAL LABORATORY  
REQUISITION

**Method of Analysis:**

Fixed cell-based assay  
(CBA)

**Test Schedule:**

Monday-Friday  
0800-1600

### Specimen:

| Adult:  | Pediatric:   |
|---|--|
| 5 mL Gold top<br>Vacutainer tube or 6 mL<br>Red top Vacutainer tube | 0-2 years: Red 0.5 Microtube<br>2-10 years: 2 mL Red top |
| EDTA, heparin or citrate plasma are also acceptable                 |  |

### Collection Information:

Volume required for testing is 3.0 mL

Minimum volume is 1.0 mL

### Reference Ranges:

Negative

### Comments:

This test is restricted to LHSC neurologists and accepted from referred in locations.

For research purposes only. LHSC is not accredited for this research test.

### Storage and Shipment:

Sample can be stored for up to 28 days at 4°C.

72 hours at ambient temperature.
