COMPREHENSIVE EPILEPSY CLINIC (CEC)

This clinic is partnership with Dr. Hema Gangam, Pediatric Neurologist, Windsor-Essex region and Children's Hospital, London Health Sciences Centre. The Comprehensive Epilepsy Clinic is specifically designed for children diagnosed with hard to treat epilepsy, also know as, Drug Resistant Epilepsy (DRE) and seizure disorders. It provides advanced treatment options such as; ketogenic diet, anti-seizure medications, and surgical interventions. Children will benefit from our state of the art, highly specialized comprehensive epilepsy clinic, as the multi-disciplinary team creates individual treatment plans for each child seen in CEC-Windsor.
