

 <b>Verspeeten Family Cancer Centre</b> London Health Sciences Centre	<b>Lung Cancer – Non-Small Cell Automated Triage</b>	<b>Date:</b> June 2024
		<b>Version:</b> 2.0

## General Booking Notes:

Patient is within appropriate catchment area (if patient is from Kitchener/Waterloo, Cambridge, Windsor, Owen Sound and Sarnia referring physician should be directed to closest cancer centre)

**EXCEPT patients referred for induction chemotherapy prior to surgery. These patients are ALL to be treated at The Verspeeten Family Cancer Centre.**

- If requirements are met, patients should be booked into the next available medical oncology consultation slot without medical oncologist triage required.
- If outstanding items are missing, a note is sent back to the referring physician to complete.
- If case reviewed at MDT and MDT note confirms consultation by MO and/or RO with items missing, then can book in next available appointment (should not wait for outstanding items if approved by MDT)
- If uncertain review referral request with triaging oncologist.

If all criteria are present then book in the next available consult slot, otherwise return to the referring physician to complete indicated investigations/documentation.

## Non-Small Cell Lung Cancer Adjuvant: Referrals from surgery/DAP following Lung Cancer Surgery

Must be completed Results Available	Must be Requested Results do not need to be available	Prefer to have but not necessary
Pathology report confirming malignancy.	EGFR and PDL1 status. ➤ If requested but not available can book into the next available consult slot.	
Either completed staging CT Chest/Abdomen/Pelvis + bone scan or PET CT within 3 months of referral.		
Operative note.		

## Booking Notes:

If positive margin or stage III NSCLC with pN2 positive on pathology report, book to RO in addition to MO

**Ideal timing to book:** Book to MO within 4-6 weeks of Surgical Resection

## Non-Small Cell Lung Cancer Stage I and II that have not undergone Lung Cancer Surgery

Must be completed Results Available	Must be Requested Results do not need to be available	Prefer to have but not necessary
Pathology report confirming malignancy.	EGFR and PDL1 status. ➤ If requested but not available can book into the next available consult slot.	
Staging PET/CT.		
CT head or MR head completed within 3 months of referral.		

### Booking Notes:

- If tissue confirmation/pathology not available -> review with triaging oncologist.
- If no PET/CT, then CT Chest/Abdomen/Pelvis + Bone Scan completed within 3 months of referral.
- If imaging not completed, not available or outside 3-month window review with triaging oncologist to determine booking in next available slot vs returning referral until imaging complete.
- Book to next available RO

## Non-Small Cell Lung Cancer Stage III that have not undergone Lung Cancer Surgery

Must be completed Results Available	Must be Requested Results do not need to be available	Prefer to have but not necessary
Pathology report confirming malignancy.	EGFR and PDL1 status. ➤ If requested but not available can book into the next available consult slot.	
Staging PET/CT.		
CT head completed within 3 months of referral.		

### Booking Notes:

- If tissue confirmation/pathology not available -> review with triaging oncologist.
- If no PET/CT, then CT Chest/Abdomen/Pelvis + Bone Scan completed within 3 months of referral is adequate.
- If imaging not completed, not available or outside 3-month window review with triaging oncologist to determine booking in next available slot vs returning referral until imaging complete.
- Book to the next available RO and MO (for combined modality treatment, if unable to coordinate appointments, then next available individual MO and RO appointments, not at same time is acceptable).

## Non-Small Cell Lung Cancer Stage IV - palliative

### MO booking

Must be completed Results Available	Must be Requested Results do not need to be available	Prefer to have but not necessary
Pathology report confirming malignancy.	EGFR and PDL1 status. ➤ If requested but not available can book into the next available consult slot.	
Staging CT Chest/Abdomen/Pelvis completed within 3 months of expected booking date.	NGS testing for EGFR and other molecular markers has been requested. ➤ If requested but not available can book into the next available consult slot.	

### **Booking Notes:**

- If symptomatic confirm with triaging physician that a bone scan and head CT or MR is sufficient for booking consult next available slot.
- If imaging not completed, not available or outside 3-month window review with triaging oncologist to determine booking in next available slot vs returning referral until imaging complete.

### RO booking

Must be completed Results Available	Must be Requested Results do not need to be available	Prefer to have but not necessary
Imaging confirming palliative RT target needed for RO.		

### **Booking Notes:**

- If in doubt, review with triaging RO.

## Non-Small Cell Lung Cancer Special Situations– Stage IV Untreated Brain Metastases

If no tissue – review with RO on call

Must be completed Results Available	Must be Requested Results do not need to be available	Prefer to have but not necessary
<input type="checkbox"/> Pathology report confirming malignancy.		
<input type="checkbox"/> CT Head (+/- MRI) within 4 weeks <ul style="list-style-type: none"> <li>➤ Ensure MR head requested if not available</li> </ul>		

### Booking Notes:

- If asymptomatic, book to SRS RO for Oligometastatic disease ( $\leq 4$  metastatic lesions)
- If  $> 4$  metastatic lesions/widespread -> book to Thoracic RO or RRC\* within 7 days.
- If symptomatic, call RO on call (preferred) or book into same/next day RRC\*
