Direct access to the auction items: bit.ly/artfortransplant

The auction sale begins at 7 am on April 14, and it closes on Thursday, April 29 at 8 pm. Please note: the auction will have a soft close. This will prevent someone from “sniping” (winning by placing a bid at the last second). At the end of the auction, if a new bid is placed, the auction is automatically extended another 2 minutes to allow all other bidders another opportunity. This ensures the item goes to the highest bidder.

Briefly,

1. **Register to bid.** Create an account and provide your credit card information. This is a secure site with all data encrypted and PCI compliance in place with up-to-date SSL certificates. If you do not have access to a computer, Timewell Auctions can place your bid (519.631.6884).
2. **Bid on what you want.** You might want to list your maximum amount, and the computer software will bid on your behalf up to that amount, but only when bidding increases. It will not automatically enter your maximum bid unless other bidders increase the bids to that level.
3. **You can provide your email so you'll automatically be notified if you are out-bid.**
4. **If you win the bid, your credit card will be charged.** Please note that all bids are final. You cannot retract a bid.
5. **Local pick-up will be available** at the Aeolian Hall on Thursday, April 30 and Friday, May 1.
6. **If you require an item to be shipped,** please contact Timewell Auctions for shipping information.
7. Please note, **images may appear slightly different than the original art,** depending on your computer monitor.

“When I moved back to my hometown, London, after a 30-year absence, I met Heather Fisher, a liver transplant recipient. As an anesthesiologist, I always had difficulty after the organ retrieval, feeling like I was losing a patient. Heather taught me to view this as saving the organs because the patient had already gone – and so it became comforting to see the miracle of a second chance at life. Heather also taught me the basics of stained glass, a hobby that I love to this day. This piece includes fused and painted glass with an accent of shattered glass – the broken heart, ready to receive a transplant.” **(Lot 15)**
