

Monday July 15, 2013

SWORBHP is offering Information Technology (IT) appointments for paramedics who would like support or assistance with the 2013-2014 Recertification Online Pre-course.

Similar to last year, paramedics will be required to access their pre-course through our Online Training Website and complete a series of online modules prior to their training day.

IT appointments will provide an opportunity to have a one-on-one session with the Certification Associate who can assist with accessing and navigating through the Online Training Website. They are intended to provide paramedics with an overview of the website, and direction on how to get started.

Appointments will be approx. 30 minutes and must be booked ahead of time. Space is limited.

Don't have access to a computer?

If you do not have access to a computer, you may request a longer appointment time in order to complete your entire pre-course. These appointments will be booked based on available time.
