PLEASE JOIN US FOR A PROCEDURAL CADAVER SKILLS LAB

Sponsored by Teleflex/Arrow EZ-IO

Teleflex/Arrow EZ-IO is pleased to invite you to our Multi-Procedural Cadaveric Skills Lab. This hands-on lab is designed to improve the provider's competence with Intraosseous and Airway Access in a safe, controlled, and clinically supervised environment. Participation in this session will also include simulation scenario practice which will enable providers to recognize when to use the Intraosseous device and airway access systems during emergent and difficult scenarios.

- WHEN:** Monday, November 21st and Tuesday November 22nd 2016
- LAB SESSIONS:** 60 minutes in length and will include a brief didactic, hands-on, and simulation
- FIRST SESSION:** Starts at 8:00am, with new sessions every 60 minutes,
Last session starts at 4:00pm
- WHERE:** McMaster University
Anatomy and Surgical Skills Lab
1280 Main Street West, Hamilton, ON.
- REGISTRATION:** www.eziolab.com

This skills lab is applicable to Physicians, Nurses, Respiratory Therapists, and EMS Personnel, and Residents. Limited spaces are available, register early to avoid disappointment.
