STOP PT FLUID REMOVAL DOSES SOLUTIONS PRESSURES EVENTS

At 0700, the fluid removal resets to “0”. You cannot obtain your 0600 to 0700 volume from this screen.

The time represents the fluid removal for the preceding hour. For example, the Periodic volume of 187 ml recorded at 0900 is for the period 0800-0900. The Total volume of 391 ml is the cumulative volume between 0700 and 0900.

The solid white dot to the extreme right indicates this is the current time period.
